

Grant Harvey
harveyg3@udayton.edu
475 – Secure App Development
Dr. Phu Phung

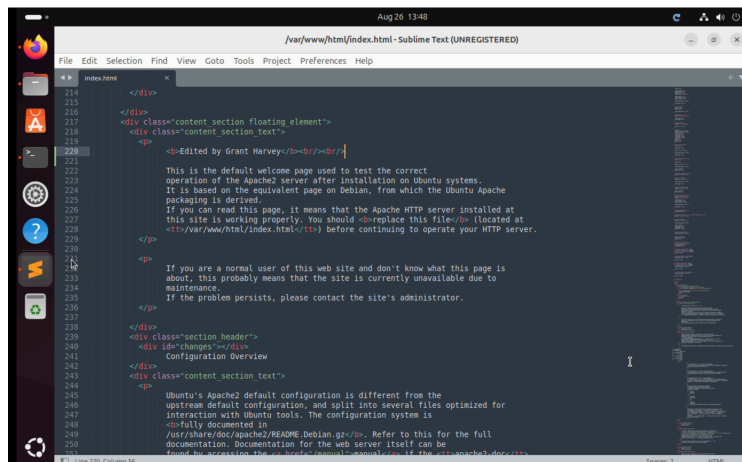

Task 1: i - install apache

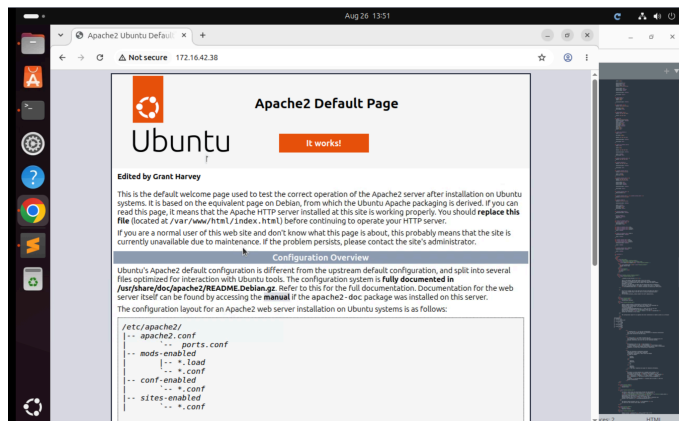

ii - install git

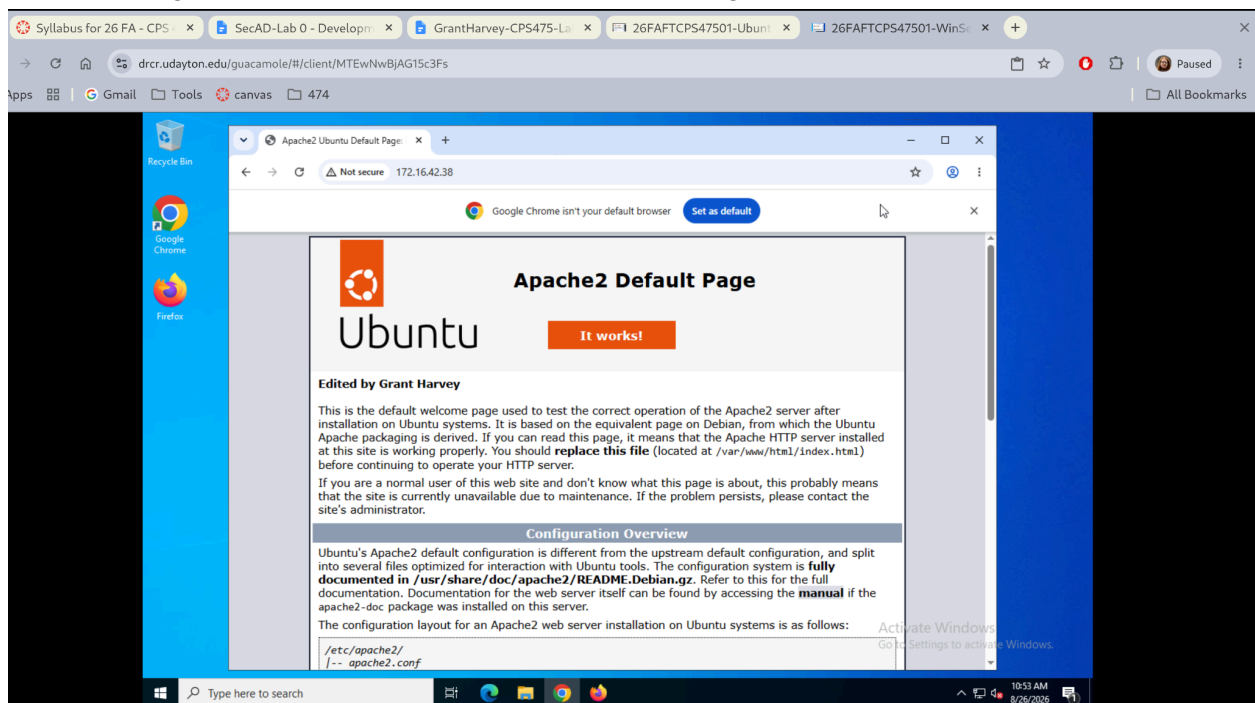

iii - install sublime text editor

iv - install and use chrome

B. Networking and add name below header on index page.

Task 2

A:

Make git repository on bitbucket and share it with professor:

<https://bitbucket.org/granthsrvey/secad-harveyg3/src/main/>

granthsrvey / CPS475 / secad-harveyg3 / Repository settings

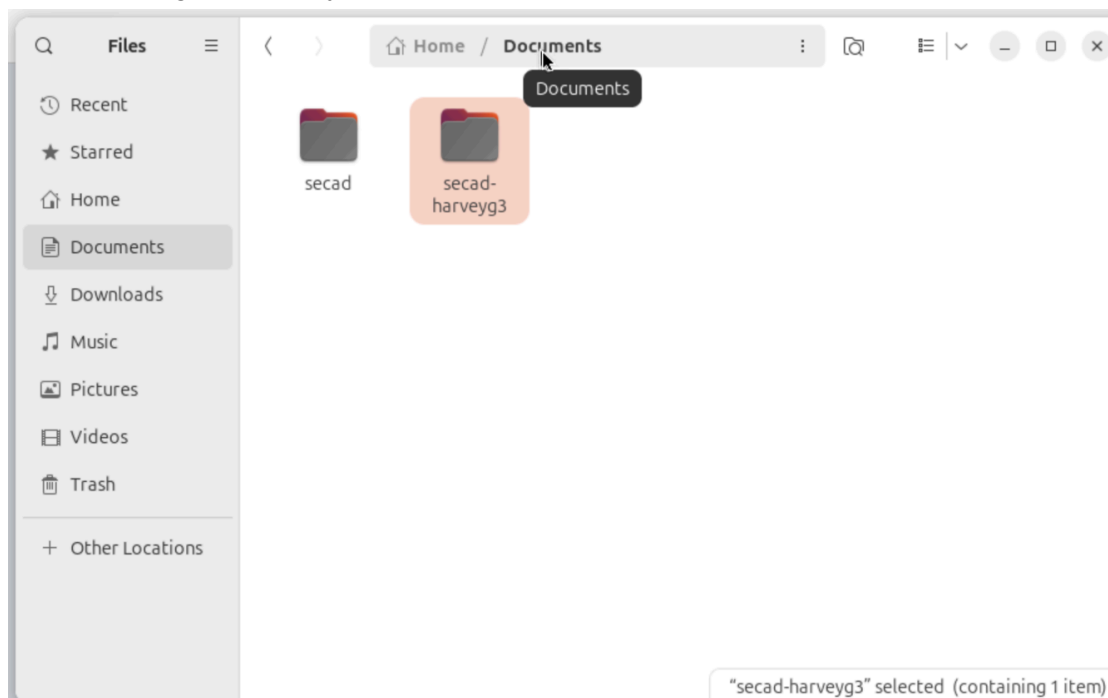

Repository permissions

Add users or groups

Repository permissions allow you to extend access beyond that already granted via [project permissions](#). In order to access the workspace, users must have [Bitbucket access](#).

	Name	Permission	Access level	Actions
☐	 Grant R Harvey Grant R Harvey	Admin	Repository	Remove
☐	 Grant R Harvey Grant R Harvey	Admin	Project	
☐	 Phu Phung Phu Phung	Read	Repository	Remove
☐	 bitbucket-admins-granthsrvey 2 members	Admin	Workspace	

B: Clone the git repository

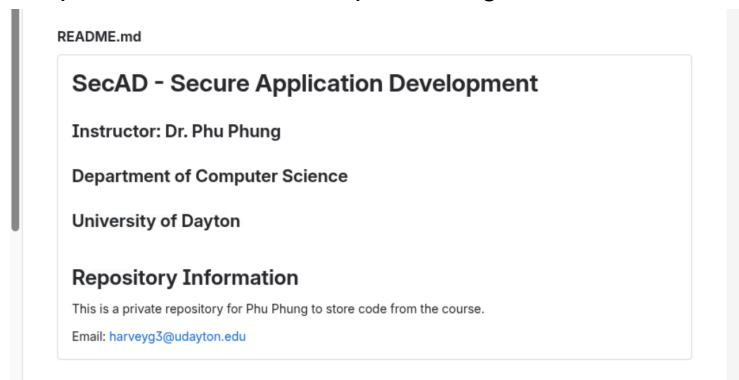

```
student@student-virtual-machine-24: ~/Documents/secad-harveyg3
commit      Record changes to the repository
merge       Join two or more development histories together
rebase      Reapply commits on top of another base tip
reset       Reset current HEAD to the specified state
switch      Switch branches
tag         Create, list, delete or verify a tag object signed with GPG

collaborate (see also: git help workflows)
fetch       Download objects and refs from another repository
pull        Fetch from and integrate with another repository or a local branch
push        Update remote refs along with associated objects

'git help -a' and 'git help -g' list available subcommands and some
concept guides. See 'git help <command>' or 'git help <concept>'
to read about a specific subcommand or concept.
See 'git help git' for an overview of the system.
student@student-virtual-machine-24:~/Documents/secad-harveyg3$ git status
On branch main
Your branch is up to date with 'origin/main'.

nothing to commit, working tree clean
student@student-virtual-machine-24:~/Documents/secad-harveyg3$ ls
README.md
student@student-virtual-machine-24:~/Documents/secad-harveyg3$
```

C: update the readme and push it to git

D: Clone the class repository. I did this before it said to so my screenshot shows it exist rather then the git commands to clone it
